CYBERSECURITY ANALYST | SOC | SECURITY MONITORING | VULNERABILITY ASSESSMENT

PROFESSIONAL SUMMARY

Cybersecurity graduate with a B.Tech in Computer Science and Engineering (8.07/10 CGPA), currently pursuing an M.Tech, and internship exposure at CyberMSI working with Microsoft Sentinel and XDR. Familiar with security monitoring, vulnerability assessment, web application security testing, Kali Linux, Burp Suite, computer networking, and TLS/SSL. Seeking an entry-level SOC Analyst or Cybersecurity Analyst role.

TECHNICAL SKILLS

Security Monitoring: Microsoft Sentinel, Microsoft Defender XDR

Security Assessment: Web application penetration testing, vulnerability assessment, Burp Suite

Operating Systems: Kali Linux, Linux, operating system security

Networking: Computer networking, TLS/SSL

Programming & Applied Security: Python (foundational), RSA encryption, steganography

Professional: Technical reporting, presentations, troubleshooting

EXPERIENCE

Cybersecurity Intern | CyberMSI | Remote May 2025 – Jun 2025

- Worked with Microsoft Sentinel and XDR to monitor security activity and support threat identification.
- Assisted with vulnerability assessments and documented findings to support security reporting and remediation.
- Gained hands-on exposure to security monitoring workflows, threat analysis, and cybersecurity reporting.

PROJECTS

Web Application Security Assessment (WAPT) | Authorized Lab

- Conducted structured security testing of web applications to identify vulnerabilities and weaknesses using penetration-testing concepts.
- Documented security observations and recommended controls to improve application protection.

Wireless Security Assessment | Controlled Lab

- Captured and analyzed Wi-Fi handshakes in a controlled lab environment to understand wireless authentication and password-security risks.
- Reviewed defensive practices such as stronger passphrases, WPA3 adoption, and network monitoring.

RSA Encryption and Image Steganography | Academic Project

- Applied RSA public-key cryptography concepts to secure messages and explored steganography for hiding information in digital media.
- Examined how encryption and information concealment can be combined to support confidential communication.

EDUCATION

M.Tech in Computer Science and Engineering | Punjabi University, Patiala

Expected: Jun 2027

Punjabi University, Patiala

B.Tech in Computer Science and Engineering | Punjabi University, Patiala

May 2024

CGPA: 8.07/10

CERTIFICATIONS & TRAINING

- Cybersecurity Internship Certificate, CyberMSI — XDR and Microsoft Sentinel, Jun 2025
- Ethical Hacking, LearnTube — Mar 2025
- Cybersecurity, ThinkNEXT Technologies Private Limited — May 2024
- Cloud Computing with AWS Bootcamp, DevTown — Aug 2023
- Python From A to Z Bootcamp, DevTown — Aug 2023
- Cybersecurity, Academor — Jul 2023
